DATE: FEBRUARY 25, 1987

With the recommendation of the All-College Council, the following restriction on registrations for weak students is effective with the fall 1987 term:

"Students who do not attain minimum scores on placement tests as determined by the Academic Dean may be restricted by the Dean to a limited number of credits and to specified courses. Students so designated will be assigned to special high-risk student advisors to assist them in their program and course selection."
