**2. Global Comparative (1 course):** Global Comparative Perspective courses introduce students to comparative analysis by exploring the cultural, political or economic aspects of human diversity around the world. They provide students with tools for analyzing human experience by examining similarities and differences in a global or international context. GP = Global Comparative

ANT 111 Cultural Anthropology	3	GP
ECO 215 Principles of Macroeconomics	3	GP
PHI 121 World Religions: From Primitives Through Zen	3	GP

**3. Historical (1 course):** Historical Perspective courses develop students' capacity to understand the contemporary world in the larger framework of tradition and history. Courses focus on the problems of interpreting the past and can also deal with the relationship between past and present. All courses are broad in scope and introduce students to the ways scholars think critically about the past, present and future. HP = Historical Perspective

HST 101 Western Civilization: The Ancient World, Beginning to 500 CE	3	HP
HST 102 Western Civilization: From the Middle Ages to the Modern World, 500-1816	3	HP
HST 103 Western Civilization: The Modern, 1815-1945	3	HP
HST 111 History of the United States: Beginnings to 1787	3	HP
HST 112 History of the United States: 1787-1877	3	HP
HST 113 History of the United States: 1877-1945	3	HP
HST 114 History of the United States: 1945 To The Present	3	HP
HST 133 History of Puerto Rico	3	HP
HST 216 History of Native Americans in North America	3	HP
HST 241 History of Chinese Civilization	3	HP

**4. Language and Culture (1 course):** Language and Culture Perspective courses foster the study of language as an expression of culture. Students may study foreign languages, which highlight the relationship between language and culture, or approved English-language courses that deal with the same issue. LP = Language and Culture Perspective

ASL 112 Beginning American Sign Language II	3	LP
GER 112 Beginning German II	3	LP
GER 211 Intermediate German I	3	LP

SPN 112 Beginning Spanish II	3	LP
SPN 211 Intermediate Spanish I	3	LP
SPN 212 Intermediate Spanish II	3	LP

**5. Natural Scientific (1 course):** Scientific Perspective courses teach the principal methods and results of the study of the natural world. Courses focus on the knowledge and theoretical bases of science. They also include laboratories or similar components to introduce students to the observation of natural phenomena and the nature of scientific study. SP = Natural Scientific Perspective

BIO 101 General Biology: Core Concepts	4	SP
BIO 102 Introduction to Organ Systems	4	SP
BIO 104 Introduction to Plant Biology	4	SP
